

## DUSTCONTROL DC AIRCUBE 1200

### TECHNICAL SPECIFICATION

Dimensions (L x D x H)	869 x 458 x 598 mm
Weight	23 kg
Inlet / Outlet	Ø250/315mm
Flow, at open outlet	1100 m <sup>3</sup> /h
Power Consumption	230v, 385 W 115v, 375 W
<b>Filter Specifications</b>	
EN 60335-2-69, class H	99.995%
EN 1822-1	HEPA 13
Pre-filter "cartridge"	G3
Pre Filter Area	0.5 m <sup>2</sup>
HEPA Filter Area	5 m <sup>2</sup>
<b>Sound Level Data</b>	
Speed 1	60 dB(A)
Speed 2	68 dB(A)

### DESCRIPTION

The DC AirCube 1200 with ECO-fan is a compact, robust and highly effective air cleaner with a capacity and size in between the AirCube 500 and AirCube 2000. Due to its capacity it can also be used in large rooms (it cleans air up to 1100 m<sup>3</sup>/h). It is built from stainless steel sheet metal to be extra damage resistant.

The fan unit is a radial blower with a specially designed scroll to build up high pressure across its complete flow range. This means that the unit generates large amounts of airflow during the entire lifetime of the filter. It has a filter indication lamp that is lit when it's time to change the filter.

The DC Aircube 1200 is also equipped with variable speed transmission to save energy, e.g. at night. An exhaust hose can be used to create negative pressure in a sealed room.

### ACCESSORIES

### PART NO.

Hose	111000
Funnel Connection	42660
Hose Clamp	4138
HEPA H13 Filter	42940
Pre-Filter	42918

### FEATURES

- Easy to use and highly durable.
- Stainless steel build for extra resistance to damage
- Equipped with an electrical outlet for lamp
- 2 speed fan settings, for eco/night operation
- Low sound level
- Compact design for portable use
