

UM-SM – complete version

## UNIMOBIL UM-SM Laying Dolly

max. 150 kg/330 lbs

Equipped with battery driven STONEMAGNET SM-600-GREENLINE.  
The UNIMOBIL UM-SM is the perfect vacuum laying system for dense slabs and stone.

Suction plate not included in scope of delivery.

If you are already using a SM please ask us for a quotation to upgrade it to a UM-SM.

The following components are required for a complete device: UM-SM + SM-600-GREENLINE or SM-600-GREENLINE-POWER.

- The most gentle and the closest positioning of slabs as possible. Re-pick up possible. Suitable for dense laying material.
- It is equipped with handles on the suction plate and a 90° turnable suspension for the perfect positioning of the slabs.
- With handles for precise guidance of the suction plate for positioning the material to be placed.
- Durable surface protection by galvanizing.
- Quick adjustment of the arm in 5 different positions.
