

Introducing, the brand new addition to our range of products

## SM 1200

Efficiently installing suction-tight stone slabs, concrete elements, steps and stoneware pipes independently of the power supply.

Can be used on any hoist

Powered by a rechargeable, replaceable 12 V battery.

Sufficient power for one working day thanks to automatic power saving. Charger optionally available

Maintenance flaps on both sides for optimum accessibility

Quick-change interface for simple and efficient suction plate replacement

Automatic, mechanical locking of the suction plates by gravity

The all-round tubular impact protection also serves as a handle – can be gripped from all sides for optimum alignment

In any direction

Ergonomic operating handle optionally available
