

GOT THAT SINKING FEELING?

GAP
GROUP

NON-MECHANICAL PLANT

www.gap-group.co.uk

When poor ground conditions affect your site, GAP stock a wide and varied range of ground protection products to ensure your operation keeps running smoothly.

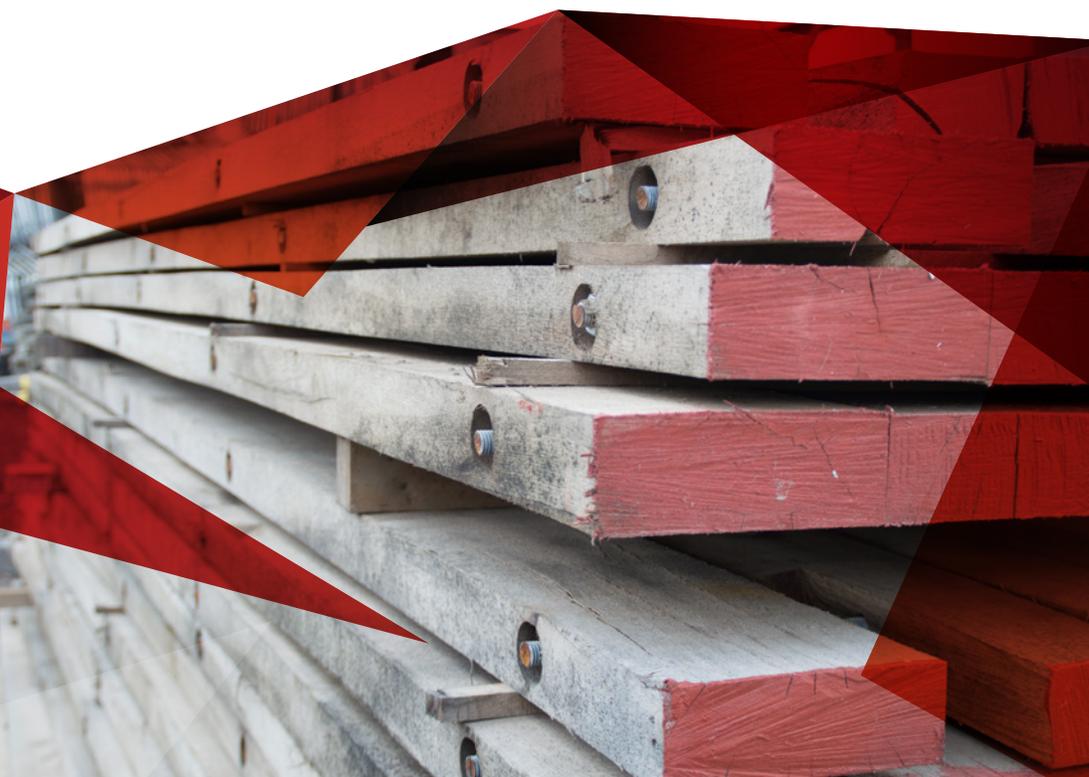

TIMBER BOG MATS

These temporary bog mats create a steady surface in muddy, slippery or waterlogged grounds, providing smooth traction for the heaviest of machinery. Available for hire in different thicknesses, they can be used for a number of different applications.

Available in four separate sizes:

70mm 100mm
140mm 200mm
